English
Spanish

EDUCATION

Bachelor's Degree in Computer Science
MD UNIVERSITY
2019 - 2023

PROFESSIONAL SUMMARY

Results-driven Software Engineer with experience in designing, developing, and deploying scalable web applications and software solutions. Skilled in full-stack development, REST API integration, database management, cloud deployment, and modern JavaScript frameworks.

Experienced in building responsive web applications, optimizing application performance, and collaborating with cross-functional teams to deliver production-ready software. Passionate about writing clean, maintainable code and solving complex technical challenges while following industry best practices.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER

Go Hype Media | Delhi
2022 - Present

Key Responsibilities

- Develop and maintain scalable web applications using modern frontend and backend technologies.
- Design responsive user interfaces with a focus on performance and user experience.
- Build secure RESTful APIs and integrate third-party services.
- Optimize database queries and application performance.
- Collaborate with UI/UX designers, QA engineers, and product managers throughout the software development lifecycle.
- Participate in code reviews and maintain coding standards.
- Deploy and maintain applications on cloud platforms.

Key Achievements

- Successfully delivered multiple production-ready software applications.
- Improved application performance through optimization and code refactoring.
- Collaborated with cross-functional teams to deliver projects within deadlines.
- Developed reusable components that accelerated future development.

PROJECTS

Enterprise Web Application

- Developed scalable web application with secure authentication.
- Built responsive dashboards and integrated REST APIs.

E-Commerce Platform

- Implemented payment gateway integration.
- Developed product management and order tracking modules.

Management System

- Designed complete CRUD operations.
- Optimized database performance and backend APIs.
